# Introduction

Hello! My name is Bedru, and I am currently a software engineering student. I have always been fascinated by technology and how it shapes our world, which led me to pursue this field. Through my studies, I am gaining a solid foundation in programming languages, algorithms, and software development methodologies. I enjoy tackling complex problems and finding innovative solutions, and I am excited to apply my skills in real-world projects. In addition to my academic pursuits, I am eager to collaborate with others and learn from their experiences in the tech industry.

## Educational Background

1 PhD in Design
2 Dr. in Data Science
3 MSc in Management

## Skills and Expertise

. I am good at negotiate with people
. I'm a good designer
. I am also a professional manager

## If You Want to Hear From Me

## My Work Experience

During my time as a software engineering intern at XYZ Tech Solutions, I had the opportunity to work on various projects that enhanced my technical skills and provided valuable industry experience. I collaborated with a team of developers to design and implement a web application that streamlined the client onboarding process, resulting in a 30% reduction in processing time. My responsibilities included writing clean, efficient code in JavaScript and Python, conducting code reviews, and participating in Agile ceremonies such as daily stand-ups and sprint planning. Additionally, I gained hands-on experience with version control systems like Git and learned to effectively communicate technical concepts to non-technical stakeholders. This internship not only honed my programming abilities but also taught me the importance of teamwork and adaptability in a fast-paced environment.

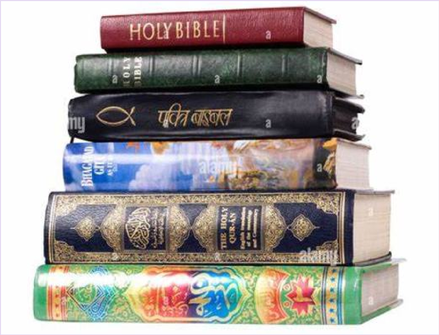
# Introduction

Hello, my name is Bedru, and I am passionate about making a positive impact in my community. With a strong belief in the power of education, I strive to inspire others to pursue their dreams and reach their full potential. My journey has been shaped by diverse experiences that have taught me the value of resilience and hard work. I enjoy engaging with people from different backgrounds, as it broadens my perspective and enriches my understanding of the world. In my free time, I love reading, exploring new ideas, and volunteering for various causes. I am committed to personal growth and lifelong learning, always seeking opportunities to expand my knowledge. Ultimately, I aspire to be a mentor and role model for future generations, helping them navigate their paths to success. I believe that together, we can create a brighter future for our community and beyond.

## Hobbies

Reading Religious Book



Watching Film

Having Conversations with My Mom

## Future Goals

I envision a future where I can make a meaningful impact in my community through education and mentorship. I aim to pursue higher studies, equipping myself with the knowledge and skills necessary to inspire the next generation. By fostering a culture of learning and innovation, I hope to create opportunities for others to thrive. Ultimately, my goal is to build a legacy of empowerment that transcends generations, ensuring a brighter tomorrow for all.

1 Graduate from school

2 Get a good job

3 By age 30, be one of the wealthiest people in the world

# Places I Like to Visit While Traveling

**With a fascination for Europe's rich history, I set off on a voyage across the continent.
